Message from the President

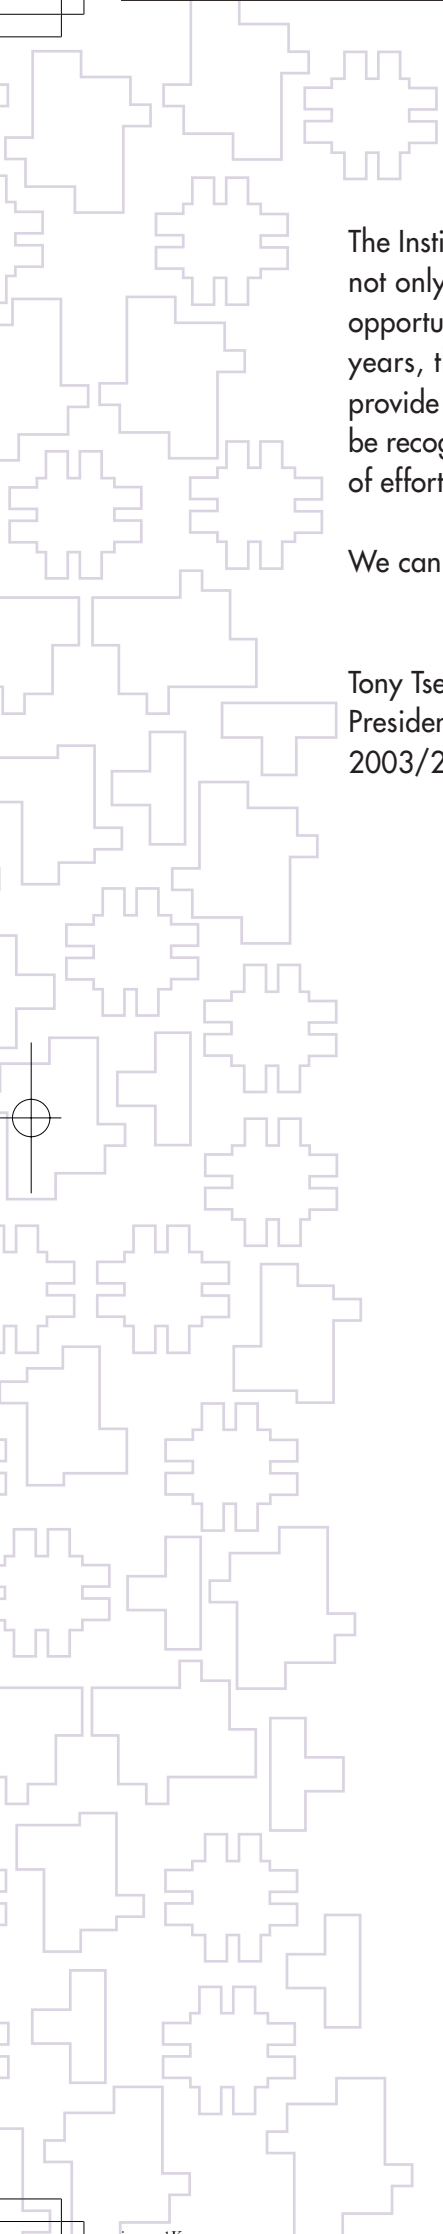

May I start by expressing my sincere thanks to your trust and support for electing me the President of the Institute 2003/2004. The past year has been a busy and memorable year for me.

To most of the people in Hong Kong, 2004 may not have been a bad year. After almost six years, we are pleased to see the economy has gained back a rising trend. To the Institute, 2004 is also a year of progress. On the membership development front, it is the first year we admit Technical Grade Members and also Corporate Members from the Mainland according to the terms of the Reciprocity Agreement signed with the China Institute of Real Estate Appraisers. We have now more than 200 Corporate Members who are qualified to practise and provide valuation services in the Mainland and Hong Kong.

Whilst we were pushing ahead in the Mainland, efforts have also been made in building up better link and communication with the professional surveying organizations in other regions. In November 2004, the Institute signed an Alliance Agreement with the Institution of Surveyors, Malaysia and the Singapore Institute of Surveyors and Valuers to set up the Surveyors Alliance Asia. This is a great step forward in the joining hands of the professional surveying organizations of Asia in promoting and upkeeping surveying professionalism and standard. Of course, such move is only the start and there is much work to be pursued by the Institutes.

To cope with all the new challenges and the ever increasing demands of a knowledge-based economy, great importance has been attached to providing our members with more and better training to furthering their professional skill and knowledge. The opening of the Surveyors Learning Centre and the enhancement of our research works are some of the means to facilitate the achieving of the aim. Moreover, the turning of our publications, rules and guides, code of practice so on into bi-lingual work will enable more global users to access and help to promote the Institute towards a wider base.

On the 12th of September, members voters had expressed their will by casting a vote to the one whom they believe would best represent the Architectural, Surveying and Planning Functional Constituency in the 2004-2008 Legco. Whereas a non-surveyor has been elected, we should not feel discouraged as after all the elected is the one most preferred by the constituency members. Endeavours should be made to ensure our Legco representative has the best understanding of surveyors' concerns and let him know what surveyors would like to pursue and ways to enhance our standing in society.

The Institute celebrated its 20th Anniversary on 26 April 2004, to sustain the growth it would not only be an opportune time for us to take a good look at our strengths and weaknesses, opportunities and threats but also a starting point in planning for the future. Over the past years, the Institute has been dedicated to upholding the high professional standards and provide opportunities to people to become successful individuals. To ensure our continuing to be recognized as the leading professional body in the real estate field, we must make the best of efforts in a way to gain such reputation and to strive for excellence.

We can only promise ourselves hard work and no less.

Tony Tse
President
2003/2004

Message from the President

會長的話

請讓我先向各位道謝，感謝你們在2003/2004年度給予我作為會長的支持和信任；過去一年對我來說是一個既忙碌但卻又十分豐盛的一年。

對不少香港人來說，2004年是一個好的年頭。經過差不多六年的時間，大家都欣然見到香港經濟逐步改善；對學會來說，去年也是一個大步踏前的一年。在會籍發展方面，我們接納了第一批「技術協佐會員」及根據與「中國房地產估價師學會」互認協議而產生的內地「正式會員」；我會現在約有兩百位產業測量師能夠在內地及香港特區同時執業。

學會在內地不斷努力向前的同時，亦繼續與世界各地測量專業團體作出緊密聯繫。我們在十一月與新加坡「測量師及估價師學會」及馬來西亞「測量師學會」簽定「亞洲測量聯盟」，成為聯盟的三個創會會員之一。學會邁出這一大步是意義深長的，因為我相信香港測量師學會將繼續為自身所代表的專業資格取得各地的認同，定能為會員帶來更大的裨益。

為了應付知識型經濟的需求，今年學會在會員培訓及持續發展方面投放了大量資源。位於怡和大廈的「測量師研習中心」在四月份正式啟用，標誌著我們對學術提升的決心。除此以外，學會亦加強科研、刊物雙語化，我們相信這一系列工作能提高會員的專業知識，同時為處於不同文化以至語言地域的會員打開雙向交流之門。

在9月12日，會員選民應當就2004-2008「建築、測量及規劃功能組別」立法會選舉其支持的候選人投下信心的一票。雖然當選的議員並非學會會員，但我們不必氣餒，因為誰人當選正好道出選民心中的取向；所以，最重要的是繼續與當選議員保持良好的溝通，使測量界別的聲音確實得到聆聽、需求確實受到重視。

2004年4月26日我們慶祝學會成立20週年。為了強化學會的持續增長，我們不但要明瞭學會所面對的機遇和挑戰，而且更需要為未來作出週詳的發展計劃。在過去的二十年，學會致力於不斷加強、提高、完善測量專業水準，新老交替，務求行業能夠得到全面發展及社會的認同和尊重；這種精神一定要延續下去。

展望將來、常備不懈。

謝偉銓
會長
2003/2004

The Hong Kong Institute of Surveyors

The Hong Kong Institute of Surveyors (HKIS) was founded in April 1984 and had 85 founder members. The HKIS was statutorily incorporated by virtue of the Hong Kong Institute of Surveyors Ordinance in January 1990 (Cap. 1148). In July 1991, there was also passed the Surveyors Registration Ordinance (Cap. 417) to set up a Registration Board to administer the registration of surveyors.

The number of corporate members has grown to 3,742 as at November 2004 – Members and Fellows – distinguished by the initials MHKIS and FHKIS. In 2004, the Institute has admitted for the first time 37 Technical Associates – distinguished by the initials TAHKIS. Apart from this, the total number of training grade members at the end of 2004 was 2,577.

To qualify as a corporate member of the Institute, surveyors must possess a recognized academic degree or similar qualification, followed by a minimum of two years supervised professional experience within strict guidelines, followed by an Assessment of Professional Competence (APC).

To qualify as a technical grade member of the Institute, surveyors must possess a cognate sub-degree or diploma or vocational qualification or equivalent as may be approved by the General Council together with a minimum of two years of technical training of an approved nature mainly in Hong Kong, followed by an Assessment of Technical Competence (ATC). Subject to fulfillment of some training and experience requirements, a technical member of the Institute may progress to corporate membership.

As a reputable and responsible professional body of surveyors, the Institute has always maintained vigorous assessment standards for entry to the profession and has also maintained high professional and ethical standards of member surveyors, through the various codes of professional practices, the code of ethics, and continuing professional development. The Institute has taken on an important and responsive consultative role in government policy making particularly on issues affecting land, property, construction.

The title "Surveyor" embraces a number of disciplines involved with land and its development with lands and buildings, covering an extremely wide scope. Some surveyors work in private practices and others may work for a landowner, developer, building contractor or government departments and related bodies. A **Land Surveyor** measures and records the shape and position of the land, define the boundary and set out the legal boundaries of the sites. A **General Practice Surveyor** advises on the best use of the land, assesses the feasibility and viability of the proposed development project as well as the valuation, marketing, sale, leasing and management of completed developments. A **Planning and Development Surveyor** further advises on the possible change of zoning, the likely environmental impacts and make suggestion on preliminary development contents. A **Quantity Surveyor** is concerned with the building contractual arrangements and cost control, evaluates the likely cost of the development project

and advises on the most suitable kind of contract for the project. A **Building Surveyor** is involved in the construction and maintenance of the building.

The HKIS has established and continue to expand its presence in the international scene through reciprocity relationships with other national surveying bodies and through membership in relevant world bodies and international organizations in order to maintain its professional edge at international level. HKIS is one of the three founding members, apart from the Singapore Institute of Surveyors and Valuers and the Institution of Surveyors in Malaysia, of the **Surveyors Alliance Asia** which was inaugurated in November 2004. The HKIS has reciprocal agreements with:

- The Royal Institution of Chartered Surveyors (RICS)
- The Australian Property Institute (API)
- The New Zealand Property Institute (NZPI)
- The Singapore Institute of Surveyors and Valuers (SISV)
- China Institute of Real Estate Appraisers (CIREA)

香港測量師學會

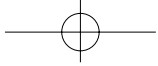

香港測量師學會於 1984 年 4 月正式成立，創會會員人數為 85 名。其後，1990 年香港立法局通過了《香港測量師學會條例》，翌年立法局再通過《測量師註冊條例》，成立測量師註冊管理局。

截至 2004 年 11 月，香港測量師學會的正式會員總數為 3,742 名，分別為「資深專業會員」(Fellow 採用 FHKIS 名銜)及「專業會員」(Member 採用 MHKIS 名銜)；2004 年香港測量師學會首次接納了 37 位「技術協佐會員」(Technical Associates 採用 TAHKIS 名銜)；除這以外，2004 年年底的「培訓級會員」人數一共是 2,577 位。

香港測量師學會的正式會員必須完成修讀由香港測量師學會認可的大學測量專業學位課程。其後，必須在專業測量師指導下進行不少於兩年的在職專業工作實習。實習期滿，考生可以向學會報考「專業評核試」(Assessment of Professional Competence 簡稱 APC) 作為最後評核。學會會員必須嚴格遵守由學會制定的專業操守規則。在成功滿足並通過特定培訓及工作經驗條件後，技術協佐會員可以申請成為專業會員。

香港測量師學會的「技術協佐會員」必須完成修讀由香港測量師學會認可的副學士測量專業學位課程。同時必須已取得不少於兩年的在職專業工作實習。實習期滿，考生可以向學會報考「專業評核試」(Assessment of Technical Competence 簡稱 ATC) 作為最後評核。學會會員必須嚴格遵守由學會制定的專業操守規則。

香港測量師學會主要工作是維護測量專業服務的標準，包括制訂專業守則、釐訂加入專業測量師行列的要求，並鼓勵會員透過持續專業進修以增進專業技能。本會在政府制訂

政策方面一直擔當重要的諮詢角色，香港測量師學會曾向政府提供的意見包括樓宇僭建問題、樓宇安全運動、物業管理問題、城市規劃及發展策略、建築質素和房屋問題，並曾就樓宇面積的量度標準發出指引。

服務於公營部門的測量師參與制訂發展策略及政策，從而達到政府的規劃政策目標。服務於私營機構的測量師一般向客戶提供相關專業諮詢服務。測量專業內容非常廣泛，服務範圍包括：「土地測量師」積極參與各類發展項目，包括劃定地界、利用測量結果繪製地圖等；致力使無數人跡罕至及未開發的地區發展成為繁盛的工商業城鎮，因此與人類的文明發展有著莫大的關係。「產業測量師」憑著專業技能及知識，對如何發展、使用及管理物業的細節瞭若指掌，能為客戶提供具實效的意見；其工作涉及產業的規劃、發展、用途、管理以至土地及樓宇估價，為客戶代理以私人協商、招標或拍賣方式租售物業，並處理物業投資的財務及經濟事務。「規劃及發展測量師」提供一系列有關城市規劃和物業發展的專業服務；除了作出物業發展可行性研究以外，他們更擅長於演繹土地契約條款，能提出如何符合土地契約條款或對條款作出修訂的建議；同時能替土地擁有者向地政署提出修訂地契交回、重批的申請、商討土地條款以至完成地契土地契約簽署的整套服務。「工料測量師」在房屋建造、土木工程、城市發展、以至礦務及等各類工程上提供初步成本諮詢成本計劃、招標檔的製訂及相議承包價、建築合約的製訂和管理、工程費的開支預算及成本控制、工程策劃及管理、仲裁建築合約糾紛和建築工程保險損失估值等等。「建築測量師」是勘測建築物的專才，服務範圍包括：就法律訂明的限制條件提供技術顧問服務、在發展項目中代表項目注資人負責發展顧問及工程項目監理工作、在發展階段負責項目管理、而在現有建築物勘測私人及公共樓房安全檢驗、維修管理。

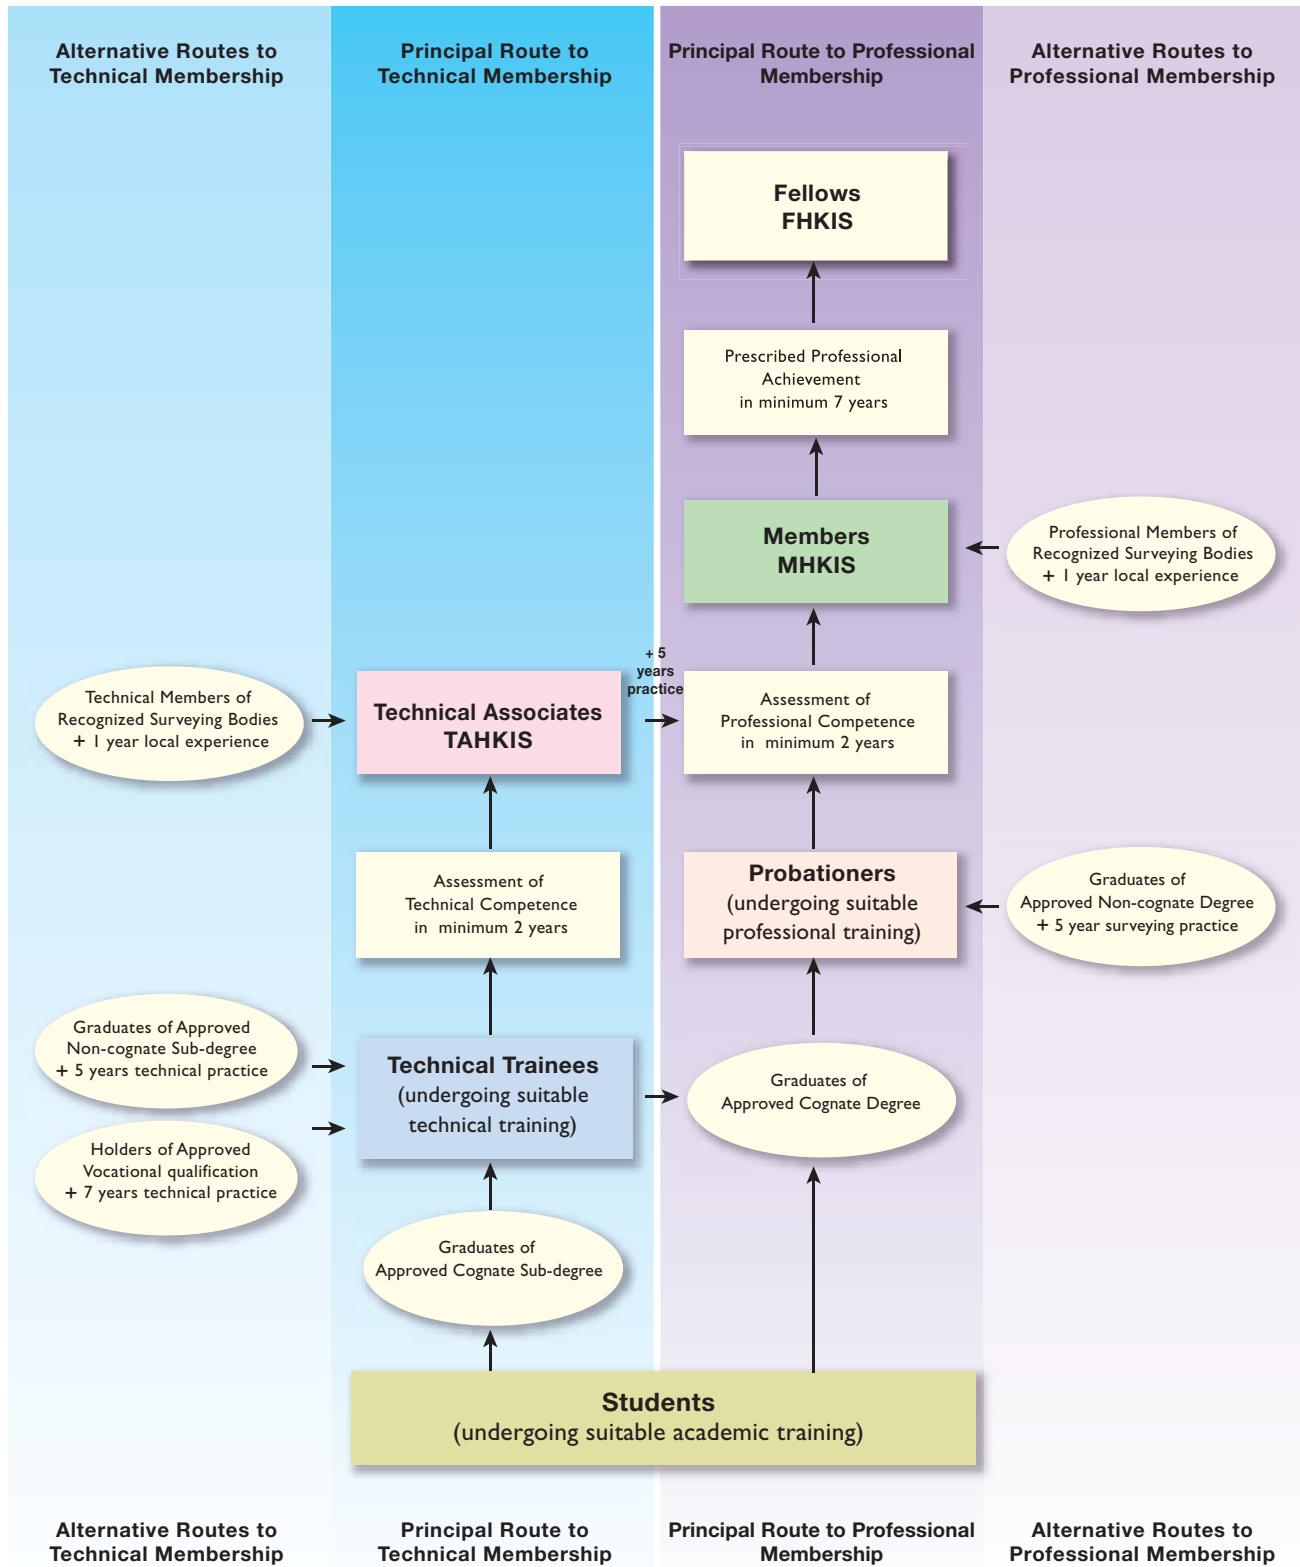

香港測量師學會不斷加強與世界各國有關測量專業團體緊密聯繫並且達成互認協定，目的在於增進本地測量專業人員在國際市場的競爭力。本學會是2004年11月成立的「亞洲測量師聯盟」三個創會會員之一，其他兩個創會會員是新加坡測量師及估價師學會和馬來西亞測量師學會。香港測量師學會目前和下列海外學會有協議，互相接納對方的會員資格：

- 英國皇家特許測量師學會(RICS)
- 澳大利亞房地產學會(API)
- 新西蘭房地產學會(NZPI)
- 新加坡測量師及估價師學會(SISV)
- 中國房地產估價師學會(CIREA)

THE HONG KONG INSTITUTE OF SURVEYORS

Route to Membership

For indication only. For details, please refer to the Hong Kong Institute of Surveyors Constitution and Bye-Laws.

Building Surveying Division

The Building Surveyor

A Building Surveyor is as the name implies, a 'Surveyor of Buildings'. A Building Surveyor's core expertise is described below:

Survey of New Buildings

- Building control in Buildings Department, HKSAR Government;
- Technical advice on legal restrictions – Buildings Ordinance, Town Planning and Land Leases;
- Development consultancy and project monitoring; and
- Project management during development stage.

Survey of Existing Buildings

- Building maintenance management (both in the private and public sectors);
- Diagnosis of building defects as 'Building Doctor';
- Building and fire safety inspections;
- Alterations & Additions, refurbishment and renovation;
- Conservation, restoration and rehabilitation of historic heritage;
- Licence application;
- Fire insurance valuation;
- Facilities and property management;
- Building surveys prior to purchase, during hand over or arising from building disputes;
- Expert witness, mediation and arbitration;
- Advice on occupational requirements, spatial planning and management; and
- Management of fitting-out works.

Building Surveyors in private practices are involved in all stages of the development process from inception, completion to operation. They are available to provide tailor-made services for Clients engaging in property development.

Site Acquisition Stage

The Building Surveyor acts as Project Consultant in advising on the development potential regarding technical and legal implications as follows:

- Restrictions imposed under the Buildings Ordinance, lease conditions and Town Planning Ordinance and also on potential construction difficulties;
- Financial and time considerations affected by the construction aspects; and
- Preparation, finalization and execution of Joint Venture Agreements and Public Private Partnerships.

Development Stage (including Construction Stage)

The Building Surveyor acts as Project Manager (or Project Consultant) to monitor the development

and construction process so that the buildings are constructed principally on time, within budget and with the desired quality. The major functions of the Project Manager are as follows:

- Preparation of feasibility studies and Client brief;
- Preparation of budgets and master programme;
- Appointment of the design team, sub-consultants, main contractor, subcontractors, suppliers;
- Management of the design process and selection of materials;
- Coordination of Government approvals;
- Contract administration and co-ordinating the approval of shop drawings, samples, variations and claims;
- Project monitoring – time, cost and quality controls; and
- Undertaking financial control – cash flow, interim payments and final account procedures.

Pre-Completion Stage

- Advising on capital costs, running costs and replacement costs for fire insurance purposes;
- Advising on maintenance strategy and preparation of operation & maintenance manuals, as-built drawings and specialists handbooks; and
- Coordinating and approving (on behalf of Clients) of Alterations & Additions works to building and building services proposed by tenants and occupiers.

After Completion

Building Surveyors play a major role in the management and maintenance of properties after their completion.

- Advising on construction and legal constraints prior to letting and coordinating the fitting out works;
- Advising on licensing requirements for licensed premises (e.g. restaurants, hotels, child care centres, kindergarten, home for the elderly, etc.) and coordination of the fitting out works;
- Advising on maintenance strategy, planning and implementation of maintenance programmes, from day-to-day to long term;
- Condition surveys of existing buildings and preparation of schedule of dilapidation;
- Advising on diagnosis of building defects, remedial works and costs;
- Advising on effects and remedial actions including litigation and compensation;
- Alterations, additions and improvements to existing buildings. Conversion of existing buildings to modern uses and upgrading their provisions to meet current requirements;
- Improvement works required under the Fire Safety (Commercial Premises) Ordinance;
- Acting as expert witness in court and arbitrator in building and contract disputes; and
- Design and management of conservation, restoration and rehabilitation of historic heritage projects.

Profile of Employment

Building Surveyors are employed in both private and public sectors or engaged in private practices serving Clients of different concerns.

HKSAR Government and Quasi-Government Agencies

- Buildings Department;
- Housing Department;

- Architectural Services Department;
- Home Affairs Department;
- Licensing Authority;
- Hospital Authority;
- Urban Renewal Authority;
- Hong Kong Housing Society;
- Mass Transit Railway Corporation;
- Kowloon Canton Railway Corporation;
- Academic institutions and others.

Private Practices and NGOs

- Private and listed property developers;
- Tung Wah Group of Hospitals, English School Foundation, Salvation Army; and
- Local and major international property consultants offering comprehensive Building Surveying Services.

(A list of firms offering these services could be obtained from the Hong Kong Institute of Surveyors).

Expertise of Building Surveyors

Expertise possessed by professional Building Surveyors can be summarized and grouped in the following nine core areas of services undertaken on behalf of Clients:

- Project Planning and Design;
- Project Management and Monitoring;
- Project Supervision (including acting as Technically Competent Persons required by Buildings Department);
- Project Revitalization (Alterations and Additions, Conservation, Improvement, Refurbishment and Renovation);
- Building Maintenance Management;
- Building Surveys and Fire Insurance Valuations;
- Building and Fire Safety Inspections and Works Supervision;
- Facilities & Property Management; and
- Disputes Resolution (Expert Witness, Mediation and Arbitration).

Building Surveyors' Vision

Whenever there is a building need, be it of a new building or existing building, a building surveyor will be able to help finding a satisfactory solution.

General Practice Division

The General Practice Surveyor

Land is a strategic resource of operation and an investment asset. Interest in land or property is bought and sold for residential, retail, office and industrial uses. These uses require careful planning, continuous management and improvement; properties are also developed as direct investments or securitized and if they are professionally managed, their values will be enhanced.

General Practice Surveyors through their professional training, skill and knowledge are in a position to offer timely and effective advice in connection with the development, use and management of the property resources both for operational needs and investment purposes. They are concerned with the planning, development, use, management and valuation of lands and buildings; negotiation of sales and lettings by private treaty and sale by tender or auction; financial and economic aspects of investment in property. And contemporaneously, because of the General Practice Surveyors' understanding of the principles of investment and asset pricing, the profession is ready to respond to the mounting demand for valuation of trade-related business assets and business enterprises.

The services offered by General Practice Surveyors can be wide and varied. They range from professional and agency services connected with the investigation, valuation, planning, development, acquisition, disposal and management of property to more recently, valuation of franchises and intangibles.

Valuation of Properties

General Practice Surveyors value all types of landed properties for various purposes. The range of valuation services covers:-

- Valuations for sale, purchase, letting and mortgage purposes;
- Statutory valuations relating to resumption, rent control, rating, stamp duty, estate duty;
- Valuations of company portfolios for balance sheet purposes, company floatation, takeovers and mergers;
- Feasibility studies on all types of properties;
- Acting as an expert witness, independent valuer or arbitrator in valuation disputes.

Development and Town Planning Consultancy

Real estate development is a complex process, which needs professional expertise and judgement. Through proper training and experience, General Practice Surveyors can provide a comprehensive range of professional services covering:

- Market studies and evaluation of development;
- Negotiation with Government on modification, surrender and regrant of land leases;
- Applications and appeals to Town Planning Board in respect of change of uses;

- Preparation of detailed financial assessments, cash flow studies and expenditure control systems throughout the development period;
- Preparation of development and design briefs;
- Constant monitoring of the development to ensure that it meets the client's requirements and reflects market needs.

Sales, Lettings and Auctions

General Practice Surveyors, on behalf of clients, negotiate the purchase, sale or leasing of all types of lands and buildings. They may act as auctioneers in disposal of properties or as owner's agents in selling properties by private treaty or tender. They may also advise on marketing strategy and on the preparation of sale and lease documents.

Property Management

In a society of rising user expectations, good quality professional management services are an essential element to sustain and enhance the value of the property. General Practice Surveyors have been involved in the management of all types of properties. They negotiate with tenants on rent review, lease renewal and re-letting of premises. They also advise on situations of refurbishment/renovation and redevelopment.

Business Valuation

Contemporarily, experienced General Practice Surveyors are engaged to provide independent valuation of trade-related business assets and business enterprises in connection with mergers and acquisitions activities in Hong Kong and mainland China.

Apart from their work in the private practice, General Practice Surveyors are also employed by the HKSAR Government in departments such as the Lands Department, Rating and Valuation Department and Housing Department to handle work including government land disposal, resumption, rating, taxation, public housing and home ownership scheme.

Land Surveying Division

The Land Surveyor

Broadly speaking, land surveying is an art of position fixing. Surveyors involve themselves in all sorts of civil engineering works and land developments such as building houses, roads, bridges, canals, viaducts, defining property boundaries, preparing plans from various surveys and managing properties. Closely related to the development of civilisation of mankind throughout the world, the profession has contributed to the transformation of sparsely populated and undeveloped areas into modern industrial and commercial metropolises. Like other professions, advancement of technology has led to specialisation and land surveying is of no exception.

Cadastral Surveying

Cadastral Surveying is concerned with the physical determination of boundaries and areas of land properties. It is always advisable for landowners and developers to ascertain the boundaries and area entitlements of their properties by land boundary surveys prior to any land development. There are at present two legislations in Hong Kong which provide for the control of professional services in this aspect. Registered Professional Surveyors of the Land Surveying Division [RPS (LS)] registered under the Surveyors Registration Ordinance and Authorised Land Surveyors [ALS] registered under the Land Survey Ordinance are well-qualified professionals to conduct land boundary surveys. Under the Land Survey Ordinance, any legal instrument effecting a subdivision of land must be accompanied by a land boundary plan prepared and certified by an ALS for registration with the Land Registry. The main services provided by RPS(LS) and ALS include:

- Re-establishment of land boundaries for valuation, land transaction and various land development purposes;
- Setting out of land boundaries; and
- Preparation of certified plans for subdivision of land parcels.

Engineering Surveying

This type of surveying relates closely to civil engineering projects. The preparation of initial survey plans for detail design, setting out of critical points for construction and the measurement of earthwork quantities for payment are types of works under this category. Land Surveyors are actively involved in the construction of roads, flyovers, bridges, seawalls, railways, tunnels and skyscrapers. Land surveying techniques are also being used in industries like shipbuilding, aircraft construction and fixing of machinery where high precision on position determination is required. Monitoring of unstable structures, reservoirs, bridges, slopes, and areas is part of the works that may not be familiar to the public but important in protecting lives and properties. Major services provided under this category are :

- Preparation of initial site survey plans;
- Preparation of photo mosaics superimposed with engineering layouts for planning of engineering projects;

- Computation of construction alignments for civil engineering works;
- Setting out pre-determined positions for construction;
- Measurement of earthwork quantities; and
- Monitoring of unstable structures, bridges, reservoirs, slopes and areas.

Geodetic Surveying

The purpose of Geodetic Surveying is to establish a very accurate main survey framework. It involves the establishment of a national network of horizontal and vertical reference points covering an entire territory. Land Surveyors use very precise equipment for taking measurement over a large area for establishment of accurate survey network. With the advancement of space technology, land surveyors often use a satellite system, called Global Positioning System (GPS), for measuring points which are many or even hundred kilometers apart.

In the Hong Kong SAR, the Lands Department of the Government establishes and maintains the main survey framework. Trigonometrical stations situated on hilltops, traverses installed along roadside and bench marks on bedrock constitute the geodetic control point system. By connecting to the network, any survey can be tied together with respect to a unique reference system. In fact, the position of many land boundaries, roads, railways, bridges and construction works are referred to this system. Major services provided under this category are:

- Taking precise observation and maintaining the monuments of networks of horizontal and vertical reference points;
- Establishment of a territorial common reference system; and
- Detecting and measuring the movement of the earth's crust for scientific research and reducing the impact of natural disaster.

Topographic Surveying and Digital Mapping

Mapping is a national service for security and development. Maps have been in use for thousands of years. Besides being a principal means of position locator, accurate maps are necessary for effective management of our environment.

With the use of emerging technology in the Topographic Surveying and map revision, the complete series of 1:1000 scale maps covering the whole territory of Hong Kong have been available in digital form. Digital topographic information is the basic building block to support the sustainable development, natural resources management, environmental protection, urban planning and utilities management. Additionally, Digital Mapping forms the basic foundation for other information systems such as community services information systems, electronic street guide systems, natural disaster management systems, transport management systems and many others. It is foreseeable that many disciplines will benefit from Digital Mapping. As the advancement of technology has resulted in lower system costs and continual improvements in Digital Mapping, a much wider application of digital map data throughout government, business and industry can be achieved.

Land Information Management

In Land Information Management, Land Surveyors are engaged in the collection, integration

and dissemination of a wide range of spatial information. With the use of geographic information system technology, Land Information Management is rapidly penetrating a number of application domains such as environmental conservation, urban planning, pollution control, transport management, emergency rescues and many others. Land surveying is the most basic activity to create and maintain building blocks for the setting up of geographic information systems and Land Surveyors are in a good position to make valuable contributions to these systems.

Photogrammetric Surveying

Photogrammetry is the science of measurement by means of photographs or digital imagery.

The photographs and digital imagery can be captured on ground, under water and in air. Photogrammetric Surveying is the method of producing graphic plans, digital data, and computer model from photographs or digital imagery. Major services/products provided under this category are:

- Digital mapping;
- Digital terrain model;
- Orthophoto/orthoimage;
- 3D digital map;
- Deformation monitoring;
- Landslide investigation; and
- Antiquities and heritage sites recording.

Hydrographic Surveying

Safe navigation and subaqueous construction require an accurate knowledge of the depth and topography of the seabed. Land Surveyors have used different techniques including the Differential Global Positioning System (DGPS) in the hydrographic survey for positioning. In harbours and their approaches, the depth has to be constantly monitored. As the seabed is hidden from the naked eyes, its profile is determined by echo sounder which sends sound waves down to the bottom of the sea and calculates the depth by measuring the time required for the signal to return to the surface.

In the Hong Kong SAR, the Government has taken over responsibilities from the British Admiralty for producing navigation charts for the Hong Kong Waters. Major services provided under this category are:

- Measurement of water current;
- Bottom sampling;
- Location of rocks, lights, buoys and wrecks;
- Determination of channel depths and preparation of charts;
- Determination of subaqueous excavation quantities; and
- Collection of any information relating to marine navigation.

Planning & Development Division

The Planning & Development Surveyor

Real estate development is a complex process which requires professional inputs of various kinds throughout different stages of the process, from project inception to its completion. Planning & Development Surveyors, as a town planning and development consultant, can provide a comprehensive range of professional services to suit the specific needs of their clients.

Property Development

Development Feasibility Study

Prior to inception of a development proposal, Planning & Development Surveyors provide clients with necessary site search and detailed analysis, and advise them on property values and appropriate land acquisition strategies. They conduct detailed market research to understand specific markets and recommend the appropriate type and mix of land uses, and the optimal scale of development with a view to maximizing project return while minimizing the risks. Development appraisal, covering land and property valuation, cash flow analysis, project return estimation, sensitivity analysis, etc., can be undertaken to test the viability of the development proposal under different scenarios.

Land Administration Inputs

Planning & Development Surveyors specialize in the interpretation of lease conditions; can advise on compliance with the lease conditions or any modifications to the lease conditions required; can act for the land owner to submit an application to the Lands Department for a modification (or surrender and re-grant) of their land lease, negotiate with the Government on the lease terms and conditions (including the land premium); and assist in the execution of the lands document.

Town Planning Applications

Depending on the statutory town plan zoning that the development site falls within development on it may require prior approval from the Town Planning Board. Planning & Development Surveyors can advise on zoning implications and the strategy to submit planning applications, review and or appeal; co-ordinate with other professional experts to prepare the necessary technical impact assessments to support the planning application. Professional services may also be provided in submitting planning objection to gazetted town plan to safeguard the interests of land owners.

Development Project Management

Property development requires a wide range of inputs from various disciplines. Planning & Development Surveyors can help to set up a right team for development projects with team members coming in at an appropriate time during the process; monitor the project progress against the development programme, advise on re-distribution of resources and to resolve issues arising during the development process.

Project Evaluation

In order to update the clients on the change in financial position of the project, Planning & Development Surveyors will carry out continual evaluation of the development proposal throughout the development process. It is done by inputting the actual cash inflow and outflow as well as a more accurate forecast on future incomes and expenditure into the financial model. A regular review of the property market trends can ensure that the development meets the client's requirements apart from the supply and demand situation in the market.

Town Planning

Public Sector

Planning & Development Surveyors are involved in the formulation of planning, lands, housing, environmental and other development strategies and policies; participate in the preparation of statutory town plans under the Town Planning Ordinance and the non-statutory departmental and layout plans. Major development briefs are also prepared to guide development. Through the statutory and non-statutory plans, they regulate and control the type of land use and property development permitted having regard to the relevant planning policies, the environmental context and specific site characteristics.

Private Sector

Planning & Development Surveyors advise clients on the extent to which the use and value of their land and property would be affected by town planning and environmental policies. The most common professional services include preparation, coordination and/or submission of planning applications, master layout plans, rezoning requests and planning objections; acting on behalf of clients in making written representations and attending hearing in planning review, appeal cases according to the Town Planning Board and Appeal Board proceedings respectively.

Other Common Professional Services

Planning & Development Surveyors also assist client in site planning and advise on urban design matters together with the relevant design experts. They also specialize in coordinating large-scale planning studies usually supported by various technical impact assessments e.g. Environmental/Ecological Impact Assessment (EIA), Drainage Impact Assessment (DIA), Traffic Impact Assessment (TIA), Geological Impact Assessment (GIA), Landscape & Visual Impact Assessment (LVIA), Social Impact Assessment (SIA).

Quantity Surveying Division

The Quantity Surveyor

Quantity Surveyors are professionals who have been trained as construction cost consultants. They have expert knowledge of costs, values, labour and material prices, finance, contractual arrangements and legal matters in the construction field.

Quantity surveyors can provide appropriate services to suit various demands and their major employers include:

- Private developers;
- Government departments and related bodies;
- Contractors;
- Mining and petro-chemical companies; and
- Insurance Companies;

Building construction, civil and structural engineering, mechanical building and engineering services, petro-chemicals, mineral extraction, planning and urban development – all are areas in which quantity surveyors are equipped to provide advice.

Preliminary Cost Advice

From the outset, the quantity surveyor will give practical advice on the likely cost of a project. He will also prepare cost studies and advise on alternative design solutions, structural forms, choice of materials, construction sequence and maintenance cost. From that, a detailed cost plan can be developed for budgetary control.

Cost Planning

Cost planning is a specialist technique introduced by quantity surveyors. It aims to help all the members of the construction team - architects, engineering consultants, interior specialists – to arrive jointly at practical designs for a project and stay within the budget.

Effective cost planning will help to ensure that, once a realistic estimate is agreed, everything that follows is in accord with it, from the successful contractor's tender to the final project cost. In planning construction costs, maintenance and running costs are borne in mind, thus helping to achieve a project that is cost effective throughout its life.

When the client decides to change the plans and introduces variations, the Quantity Surveyor will rapidly assess the cost implications.

Cost planning means improved economy standards and so better value for money. Constant monitoring means that the risk of overspending can be spotted early and prompt corrective action taken.

Contracting Methods

No two projects are the same. Most major projects - and many smaller ones - are individual challenges and need individual solutions. Not surprisingly, therefore, the construction industry has evolved a range of procedures.

Competitive tendering is the normal method, and can allow either for firm price tenders, or tenders which provide for cost fluctuations.

Negotiated tenders enable the whole project to be planned from the outset with a single contractor, chosen for a particular expertise or construction system, while in a package deal (or 'design and build') the contractor undertakes the whole task of design and construction.

The Quantity Surveyor will advise on the best kind of contract for the project.

Tendering

Competitive tendering of one kind or another remains the usual basis for construction contracts, and bills of quantities are fundamental to this process.

Bills of quantities translate the drawings, plans and specifications produced by the designers to enable each contractor to calculate his tender prices fairly, on exactly the same basis as his competitors. During construction, they are also a crucial element in effective cost control.

Where other tendering procedures are appropriate, the quantity surveyor will recommend alternatives.

Valuation of Construction Work

In most construction contracts, the contractor is paid monthly. The quantity surveyor will value the work carried out each month on the project and submit a recommendation for certified payment.

The Quantity Surveyor will stay with the project right to the settlement of the accounts, when all necessary adjustments are dealt with.

He will also prepare any analysis of the final account, which may be required; prepare statements of expenditure for tax or accountancy purposes; assess the project's replacement value for insurance.

Project Management

A successful project requires expert advice from all the building professionals. A Project Manager is necessary to co-ordinate the expert advice and manage the project to ensure its timely completion within the budget.

As quantity surveyors have been specially trained in the financial, legal and contractual aspects of construction, they are particularly well qualified for the role of Project Manager.

Giving expert evidence in arbitrations and disputes

Assessing replacement values for insurance

Junior Organization

The Junior Organization (JO) is a section of the Hong Kong Institute of Surveyors representing the interests of more than 3,500 members of HKIS comprising all student members, probationers and young qualified members of all divisions, those who are the future of the surveying profession.

A JO representative, usually the Chairman of JO, sits on the General Council and Executive Committee of HKIS and JO representatives are nominated to various Divisions, Boards, Panels, Committees and Working Groups of HKIS in order to express the views from JO members' perspective.

JO also holds CPD and PQSL seminars, which not only provide opportunities for our members to learn from outstanding personalities from the industry, academic or government but also help student members to tackle the Assessment of Professional Competence (APC). We also organise or participate in various social events such as leadership training, sports competition, dragon boat competition, volunteering services, fund raising campaigns, annual dinner and wine tasting training. Apart from the traditional events, we continue to create new themes for our members such as goodwill visits to mainland and the other professional institutions, which are introduced to provide an excellent opportunity for JO members to train their presentation skills and learn from celebrities within our industry or society respectively.

Beyond the Institute, we often encourage young members to participate in different kinds of activities. For example, JO members are actively involved in the annual Education & Careers Expo and HK Real Estates Service Expo in the Mainland, which are organised by the Hong Kong Trade and Development Council, together with senior members appointed by the General Council and Divisions. Besides, educational visits to universities, promotional visits to colleges and schools have been organised to communicate with students of universities and to promote the surveying profession respectively.

For the society, we also join in many charity activities such as charity walks and to-be auctioneers for auctions of Vehicle Registration Marks (VRM). **The HKIS List of Auctioneers for the Auction of VRM** is formed in order to nominate professional auctioneers for the future auctions of VRM in co-operation with the Transport Department.

"Modern Building with Modern Technology"

George Leung

President's Report

President's Report

Year 2004 is a year of significance. Hong Kong is pleased to see that property price has regained a rising trend and is returning to prosperity.

To the Institute, we celebrated the 20th anniversary. Throughout the past 20 years, the surveying profession has grown and flourished and remains one of the most influential professional organizations in Hong Kong.

Year 2004 is also the first year the Institute began to admit technical grade members. None could deny the significant contributions from technical grade staff to the success of the real estate and construction industry. Admitting them as members would help to increase the representation of the surveying profession whilst enabling them to share the glory of the Institute, all for the good sake of our profession.

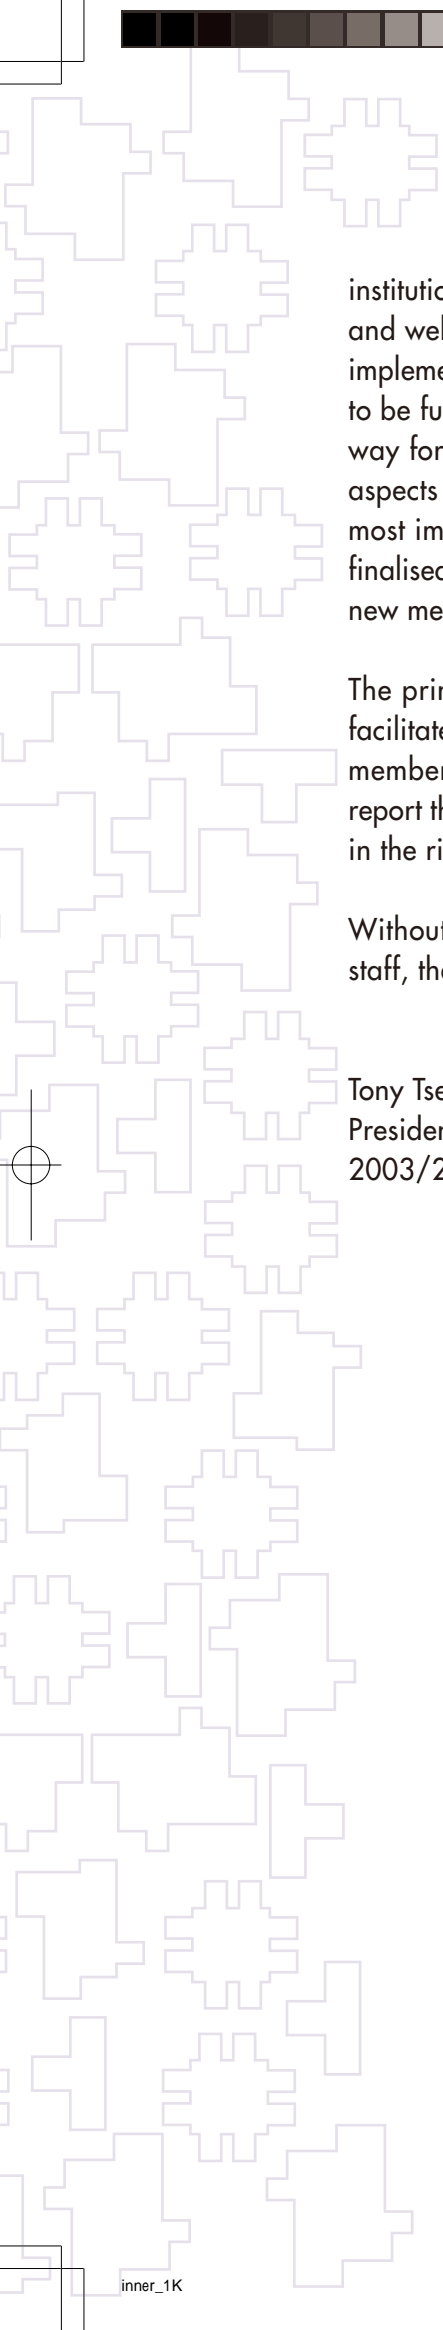

In my presidential address presented to members at the 2003 Annual General Meeting, I highlighted the great potential of the Mainland market and that the Institute should allocate more resources to promote and elevate the status of the Institute qualification as well as the scope of quality services provided by our members to the Mainland. Through the hard work of members, the first batch of about a hundred Corporate Members of the General Practice Division have formally received the Practising Certificate permitting them to practise and provide valuation services in the Mainland since August 2004. The Institute is making every effort to facilitate members to capture the business opportunities in the Mainland. Concurrent with the conclusion on the arrangement for the General Practice Division, the Institute is actively pursuing to conclude similar arrangements for other divisions. It is expected concrete progress could be achieved shortly.

Whilst we were pushing ahead in the Mainland, efforts have also been made in building up better link and communication with surveying organizations in other regions and cities. In November 2004, the Institute has reached agreement with the Institution of Surveyors, Malaysia and the Singapore Institute of Surveyors and Valuers to form the "Surveyors Alliance Asia" aiming at, amongst others, the promotion of best surveying practice in the region and the recognition of academic qualification in members' countries.

To meet the demands of the increasingly knowledge-based economy, the Institute attaches great importance in providing our members with more and better training to furthering their professional development. Our celebration of the Institute's 20th anniversary on 26 April 2004 also marked the official opening of the Surveyors Learning Centre in Jardine House. This new accommodation with seating capacity of about 200 persons would facilitate our organization of more conferences and training sessions for members.

As the Institute is becoming larger there are mounting pressures to respond to matters of

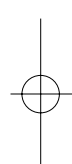

institutional interest promptly and in a proactive manner. Looking ahead, we need a strong and well structured administrative office, professionally run to assist us in formulating and implementing plans to meet the demands of tomorrow's market place. It is important for us to be fully aware of our strengths and weaknesses, threats and opportunities. To plan our way forward, the Council has appointed a management consultant to look into the many aspects of the Institute and surveying profession, the strategic direction, the branding and most important of all, how to serve the members better. The consultancy report has been finalised in December 2004 and is being studied by the incoming Council. No doubt, some new measures would be introduced in the not distant future.

The primary objective embarked on during my Presidential year is how the Council can facilitate and enhance the competitiveness of our profession, and the Institute can serve the members better. Whilst there should never be room for complacency, I am pleased to report that the profession as a whole in the past year has made the right decision, is moving in the right direction and stands to grow from strength to strength.

Without the unwavering support of the Council members, the Secretary General and his staff, these would not have been possible. To them, as your President, I am indebted.

Tony Tse
President
2003/2004

會長報告

2004是豐盛的一年。經過了七個艱辛的年頭，我們終於看見房地產市場穩步上揚，經濟復甦在望。

香港測量師學會在2004年慶祝成立20週年。在過去的日子裡，測量專業不斷擴大發展並一直保留它在專業範疇被受尊重的地位。

2004年亦是學會首次收納「技術協佐會員」，相信大家都會認同技術協佐人員對房地產建築業進展的貢獻；接納技術協佐會員，不但標誌著我會的概括性比以前更深、更全面，同時通過學會為這些會員提供優質的培訓，使他們能獲得更多知識，為吸引行業新血奠下基礎。

在2003年的週年會議上，我提出了內地市場潛力及其重要性，學會必須要重新分配資源，務求能儘快在內地建立學會專業的地位，令會員能在此基礎上作出肯定及務實的發展。經過不斷的努力，學會在2004年8月收納了超過一百位中國房地產估價師學會的會員為專業會員，而產業測量組亦有近百位會員通過安排，順利取得『國家註冊測量師會員證』，擁有在內地執業的資格。學會在這方面是不遺餘力的，我衷心的希望更多更好的消息陸續來到。

除了在內地的推廣工作以外，我們也不斷擴大與其他海外測量專業組織聯繫。通過各會員的努力，學會在十一月與新加坡測量師及估價師學會及馬來西亞測量師學會簽定「亞洲測量聯盟」；其綱領及主旨包括：推廣及提升地域性的優秀測量專業、在科研專案上共同參與、為彼此會員提供支援、及對三方高等院校測量本科生的學術資格相互承認等等。擴大香港測量師學會所代表的專業資格在各地的認同，將為會員帶莫大的裨益。

為了應付知識型經濟的需求，學會在會員培訓及持續發展方面投放了大量資源。位於怡和大廈八樓、佔地超過三百平方米、可以容納兩百多人的「測量師研習中心」在2004年4月26日正式開幕。中心的啟用除了為學會提供了一個理想的學習場地以外，更顯現我們對學術提升的決心；希望這些設施能為會員在鞏固專業知識的過程中發揮作用，使我們更具裝備地面對房地產業、建造業及經濟發展所帶來的變化、挑戰及機遇。

隨著學會日漸擴大，會務變得繁重複雜；很多工作除了在時間上處理得宜以外，還必須擁有前瞻性。在瞬息萬變及急速融合的市場裡，我們必須深入洞悉市場，才可決勝千里；明顯地，學會需要一個強而有力的行政架構作為後盾。有見及此，理事會通過決議，聘請管理顧問公司，深入研究學會營運架構及效率，從而理解並分析學會面臨的宏觀挑戰、繼而提出針對問題的方案；包括如何為會員提供最合適的服務。管理顧問報告在2004年12月已經提交，並由下一屆理事會研究完成；本人盼望報告會為學會提供明確的分析、有見地的方案，為學會未來的發展提供一個藍圖。

我上任時訂定的目標是如何能促進增強本行業的競爭力，改善學會服務會員的素質。今天我欣然報告今年的工作及成果，我們所走的大方向是對的，我們的決定為往後豎立根基，十年樹木、百年樹人。

在此，我衷心感謝所有理事會的成員、總幹事及他的同僚把具體的工作完成。作為學會現屆會長，對他們給予的支持，我無以為報。

謝偉銓
會長

Accounts and Financial Statements

Treasurer's Report

For the financial year ended 31 July 2004

As at 31 July 2004, the Institute recorded a closing balance of HK\$12,009,685 as shown in the Audited Accounts. There was a deficit of HK\$758,681 (5.9%) as compared with the opening balance of HK\$12,768,366. You will see that we have been doing very well to maintain a moderate increase in income of some HK\$0.5M from annual subscriptions and entrance fees.

The deficit was mainly due to the following non-recurrent expenditure.

Net Expenditure of the 20th Anniversary of the Institute	HK\$258,456
Redemption of HKIS CPD Coupons	HK\$538,930
Expenditure of the fitting out works of the SLC	HK\$1.15M

On the divisional and Junior Organization's accounts, there is a total of HK\$2,164,517 accumulated funds as follows: –

Building Surveying Division	HK\$193,009
General Practice Division	HK\$373,226
Land Surveying Division	HK\$42,225
Quantity Surveying Division	HK\$768,347
Junior Organization	HK\$787,710

In general, I would like to report that the financial position of the Institute is healthy. On the coming financial year, the anticipated major non-recurrent expenditure and events affecting the account would be : –

Alteration works of the Administration Office for the provision of a library	HK\$1M
Projected cash flow (advances) for the FIG Working Week 2007	HK\$0.18M

The account for our service company, Surveyors Services Limited "SSL" is also enclosed for members' information. SSL provides administrative and management services to the Institute.

Lastly, it is my pleasure to be the Honorary Treasurer of the Institute for the past year and I would like to thank all the staff of the Administration Office for their continuous support and service.

Alex Wong
Honorary Treasurer
2003/2004

Divisional Council Reports

Raymond Chan

Building Surveying Division

Here we are, at the end of another council year. I like to report on some of the things we did.

Counterpart in Mainland

We are waiting for the confirmation of re-positioning of the Supervision Engineers. Further talks will be commenced in beginning of 2005.

AIBS Visit to us

The President & CEO of AIBS visited us, gave us a talk, visited the Buildings Department and visited a building surveying practice in July.

Attendance of AIBS Conference in Tasmania

I attended their conference with two delegates from the Buildings Department. We established better link and are trying to learn from them their experience in the implementation of private certificate.

Visit to Singapore & Malaysia

Mr Edwin Tang & Mr Kenny Suen represented BSD to visit Singapore & Malaysia. We all feel that we need to establish a closer link in this region.

WOBO meeting in Japan

I and Kenneth Yun attended the WOBO meeting in Japan in April. The next WOBO meeting is expected to be held in Hong Kong in 2005.

FIG Conference & Exhibition

I attended the FIG exhibition in Greece in May.

CPD & Annual Conference

We held a number of CPD talks covering licensing, Amoy Garden Project E, site visits locally & site visit to Shenzhen, etc. Most of the events were well attended and highly rated by participants.

Proposed Building Affairs Tribunal

Our council has worked on this proposal. HPLB appears to be really interested and we are following it up actively.

Surveyors Learning Centre

I acted as Project Manager for the fitting out of the Surveyors Learning Centre.

My Future Move

I shall take up the position of Vice President of the HKIS for the year 2004-2005.

Yu Kam-hung

General Practice Division

Since its first meeting in November 2003, the new GPD council has been working towards "Excelling Profession Standards" and "Strengthening Industry Position". With the help of our immediate past Chairman and four co-opted members, we have formed 16 working panels for the development of general practice surveying, and we are happy that members are now enjoying the fruits of those labours.

The Assessment of Professional Competence has long been a good qualification regime for probationers. We have improved the consistency, transparency and quality of the assessment over the past year, which has enabled probationers to be better prepared for the assessment.

The Business Valuation Standard was published in June 2004 and circulated to members for comments. This paved the way for members to participate and promote business valuation services in Hong Kong. Cooperation with the Hong Kong Society of Financial Analysts and the Royal Institution of Chartered Surveyors on business valuation matters has been realised through the establishment of the Business Valuation Forum. The Forum has gained support from the Securities and Futures Commission and other relevant government organisations.

From 1 January 2005, the new property valuation standards would have taken effect. The new property valuation standards are tailor-made to accommodate updated requirements on listing rules, accounting principles and investment analysis. A scrupulous public consultation has been under way, and relevant government departments or organisations have already recognised the valuation standards. We will continue participating in the development of business valuation and will begin with the preparation of relevant guidelines and manuals. Meanwhile, further improvements on the upcoming valuation standards are expected.

The GPD Council has set up a more efficient and effective communication channel with various Government Departments and quasi-governmental organisations including the Urban Renewal Authority, Lands Department, Housing Department and Rating and Valuation Department. We have also been actively commenting on various government policies from the general practice surveyors' point of view, strengthening the Institute's commitment to the community.

We have been working hard to promote our profession to both the public and private sectors. During the past months, we have had luncheon meetings with private developers and government departments such as Cheung Kong, Sun Hung Kai, Hang Lung, MTR, Henderson, Wharf and Lands Department.

It has been a fruitful year in the development of mainland affairs. A remarkable professional reciprocity agreement with the China Institute of Real Estate Appraisers (CIREA) was reached in November 2003. Today, 97 GP members have gained the CIREA's recognition under this agreement and 111 CIREA members have qualified to join our Institute. We have served different professional entities from mainland to promote our general practice surveying services, and we have organised various exchange activities with government authorities and private real estate developers on the mainland. In fact, bilateral connections have never been discontinued.

With regard to international affairs, we have organised visits to Singapore and Malaysia, further reinforcing our connections with professionals in these two important South East Asian countries. APC, CPD and professional advancement are always important tasks for the GPD Council. In 2004, 50 new GP Surveyors have been successfully qualified, 11 in June and 39 in December. To advance our professional development, we have arranged 13 CPD events on different topics. We have begun with a survey to consult members on the development directions of our industry. At the same time, we are in the process of reviewing the definition and the list of "General Practice Surveying Firm", so as to gain more acknowledgements from the general public of our profession.

We are now seriously determining our position on the formation of a new division in property and facility management, in which some opinion suggest a split from the existing General Practice Division. This is, however, part of the long-term development of HKIS and careful discussions with all members within the Institute will be necessary. Whilst there are still many issues to be resolved, we have been working closely with the Property and Facility Management Forum and conducting further studies on this matter.

The GPD has keenly participated in two important conferences concerning Public Private Partnerships and conservation policies. We have also actively co-operated with academic units on the Professional Services Development Assistance Scheme (PSDAS) to improve the efficiency of the professional services.

On 26 November 2004, we organised the HKIS Property Marketing Award to recognise outstanding performers in marketing new real estate developments. We believe that the provision of The Best Marketing Award, The Best Flat Layout Award and The Best Property Brochure Award have stimulated private developers to be more customer-oriented in designing and marketing their property developments. The campaign attracted huge popularity from the press and the general public, and further proved the significance of general practice surveyors in the real estate industry.

We expect 2005 will be a harvesting year. We look forward to further professional advancement, so that we will maintain our position as a leading professional organisation in the world.

Apart from having more commitment to the community and remaining attentive to various government policies and their impacts, we will be actively engaging in a research project in collaboration with the Polytechnic University on the potential impact upon the Hong Kong property market of the Hong Kong – Macau – Zhuhai bridge.

With regard to international affairs and mainland affairs, the HKIS GPD, the FIG and the China Institute of Real Estate Appraisers will jointly organise an international conference in Beijing in October 2005. We have also actively negotiated with the China Real Estate Valuation Association (中國土地評估師協會) on another reciprocity agreement, and a working committee will be formed. At the same time, there will be visits to Korea and Japan.

The role of the Registered Professional Surveyor is a bit unclear and vague at the moment. We will seek to persuade Government to give more recognition to the registered members of the Surveying Registration Board. Moreover, we will seek for further development of the Technical Associate membership through the enhancement of Assessment of Technical Competence.

The Independent Valuer/ Surveyor mechanism is in need of review. We will begin with a complete evaluation of the mechanisms and determine the possible ways to improve them such as with the list of valuers, the appointment system and the criteria for an independent valuer to qualify.

Last but not least, young members are the future pillars of the GPD and the Institute. We have been investing greater effort to expand the numbers of young members by increasing the frequency of CPDs and trainings. We have also spent much time to communicate with the youngsters and to hear their concerns on the Division's and the Institute's development.

I would like to end by thanking all GPD council members for the contribution they have made during the year.

Lam Li-wah

Land Surveying Division

To celebrate the 20th anniversary of HKIS, the LSD council has organized more CPD events, technical visits and social functions than before. The council, respective committees and working groups have been contributing their dedication and hard work in making every event successful. At the same time, the council continues to face challenges from the rapid changing environment and to upkeep the land surveying professional from time to time. The council appreciates deeply members' participation, comments and suggestions in the past. Their feedbacks are essential to the council for future planning and development. In this report, I summarize herewith the development on the following major issues.

International Affairs

FIG Working Week 2004 in Athens

The president, Tony TSE, led the HKIS delegation to attend the event on 22-27 May 2004 in Athens. In the General Assembly, our past president, Mr Hak CHAN, was nominated to stand for election of the FIG vice president for the term of 2005-2008. Unfortunately, there were 4 other candidates competing for the post. After voting, Mr Chan failed to secure the required percentage of votes. At the same event, HKIS promoted actively the FIG Working Week 2007 to be held in Hong Kong 2007. In addition, HKIS sponsored a LSD member to attend a Symposium on Modern Land Consolidation organized by FIG Commission 7 held in France from 8-14 September 2004.

Reciprocity Agreement

The president, Tony TSE, led a delegation consisting of members of the Executive Committee and Chairman of the International Committee, Mr Stephen LIU, visited Singapore Institute of Surveyors and Valuers (SISV), the Institute of Surveyors, Malaysia (ISM) on 31 July and 2 August 2004 respectively. In the meetings, HKIS proposed to form an Alliance of professional institutes for strengthening the relationship and promoting the surveying professionalism and standard in the Asian region. The three professional bodies became founding members of the Alliance and signed an agreement in November. In addition, the possibility of reciprocal recognition of professional members is being examined. A working group will be set up to look into the details soon.

HKIS/RICS Relationship

Following its globalization policy, the Royal Institution of Chartered Surveyors (RICS) set up its Hong Kong Chapter recently and announced to run her own APC on Properties and Facilities Management. Early this year, RICS proposed to ICES of merging the institutes. The proposal was rejected by ICES. Later, RICS changed to offer membership to ICES member. On 30 June, LSD held a forum on this issue. Members' views, comments and concerns were noted and reflected to HKIS ExCom for consideration. On 23 September, HKIS organized an open forum on the same subject. A report from Chairman of the Working Group on HKIS/RICS Relationship

was published in the October issue of Surveyors Times. In conclusion, the Working Group does not see any benefit to members of HKIS for the RICS return to Hong Kong. A review of the Co-operation Agreement with RICS is also recommended.

Institute of Civil Engineering Surveyors visited HKIS

On 11 March, Mr John Wilding, President of the Institution of Civil Engineering Surveyors, together with their three Hong Kong Regional Committee members visited HKIS. Mr TT Cheung, SVP; Mr Wong Chung-hang, JVP; Mr Alex Wong, Hon Treasurer and I welcomed them and had a friendly discussion on the organization and the role to be played by the institutes both locally and internationally. We also exchanged views on the development of the profession and the collaboration between the two institutions in the near future.

Mainland Affairs

Since the SARS outbreak in 2003, many Mainland conferences have been postponed to this year. HKIS has sent delegates to the following conferences:-

- Beijing, HK & Macau Geomatics Conference, 7-9 Jan 04 in Beijing
- 4th Across-the-Strait Surveying and Mapping Conference, 16-18 Aug 04 in Changchun, Jilin
- Mainland-Hong Kong-Macau-Taiwan Land Administration Conference 14-17 Sep 04 in Macau

Close Economic Partnership Arrangement (CEPA)

Last year, the LSD council endorsed the formation of a CEPA working group to study and explore business opportunities in Mainland under CEPA. One of the items was the mutual recognition of professional qualification. Through the arrangement of the Environmental, Transport and Works Bureau (ETWB) and the Ministry of Construction (MOC), Mr Hak Chan, Chairman of the CEPA working group, had two meetings with Mr Liu Xiaobao and Ms Zhang Wenhui, representatives of the State Bureau of Survey and Mapping (SBSM) of the Ministry of Land and Resources. Mr Chan introduced the professional surveying qualification system in Hong Kong for their reference. As SBSM is still in the process of formulating a professional qualification for land surveying practitioners, the council decided to dissolve the CEPA working group for the time being.

Local and Institutional Affairs

Liaison Meeting with Hong Kong Polytechnic University

On 13 January, LSD council met the staff of the Department of Land Surveying and Geoinformatics of HKPolyU to discuss issues on long term training needs; career development and job opportunities for land surveying graduates; cooperation between HKIS and HKPU in organizing CPD events and other survey related activities; we also discussed the possibility of partnership arrangement between HKIS and HKPolyU. We also agreed to arrange HKIS members to present talks to HKPolyU students in the near future. HKIS accredited the full time and part-time degree courses in land surveying and geo-informatics in the middle of this year.

Land Titles Ordinance

The Land Titles Bill was eventually passed in LegCo on 7 July 2004 after years of debate. Since the Administration changed the overnight conversion into daylight conversion which

would last for 12 years, the LSD wrote to the Bills Committee in May again expressing that land boundary plan was one of the essential elements to describe the land titles and there would be plenty of time for boundary survey during the conversion. At the same time, we reflected that the clause 92(2)(b) "the Director shall not determine the boundaries of lots held under Block Government Lease" should be removed based on:-

- Technically feasible to determine the boundaries of old schedule lots and government is performing such duties in land resumption exercise;
- Implied a less good titles and subsequently of lower land value than urban area;
- Unequal treatment to rural landowners.

With the support of the Hon PC Lau, Mr SC Leung, Chairman of the Boundary Survey Advisory Committee, represented HKIS to present the views to Bills Committee members on 8 June. The above clause was eventually removed. Although registration of a land boundary plan is not a mandatory requirement under the ordinance, it is clearly spelt out that in clause 94(3)(d), owner to appoint authorized land surveyor (ALS) to conduct the survey in accordance with the code of practice under the Land Survey Ordinance. It is the time for LSD council to formulate training strategy for more ALS to meet the foreseeable demand.

Rules and Guides to Assessment of Technical Competence

After amendments to the HKIS constitution and bye-laws, LSD Education Committee had drafted the rules and guides to Assessment of Technical Competence (ATC) and had been endorsed by General Council. The processing of all the TA applications is being dealt with by the Board of Membership and the Board of Education.

Proposed Amendments of Regulations for Land Surveying Division

A working group has reviewed the regulations and proposed some amendments necessary to tally with the HKIS Constitutions and Bye-laws. The major change is the creation of two additional seats for TA members in the LSD Council. These proposed amendments have been sent to members and the resolutions would be voted in the AGM held on 18 November 2004.

FIG Hong Kong Forum

A total of 3 forums were held in the past. The last one was on 25 November 2003. It is anticipated that another one would be held in the near future.

Technical Functions

Up to the writing of this report, the CPD committee has organized a total of 9 CPD events this year including conference, seminars and talks. Amongst all, the most successful is the one day conference **A New Era of Land Tenure in the New Territories** jointly organized with HKPolyU. The Conference attracted about 150 participants and well known speakers from various sectors to present their viewpoints.

The LSD CPD committee will organize more events in the coming years to meet members' need particularly the anticipated increasing TA members.

Social Functions

The LSD annual dinner was held successfully on 29 October and LSD Golf Day was held on 23 November.

Education and Membership

Four probationers were elected as member this year. 10 applied for Assessment of Professional Competence. Up to the end of September 2004, LSD has 36 fellows, 155 members, 28 Technical Associates, 88 Probationers and 4 Students, giving a total of 311 members.

Conclusion

In this year of the 20th anniversary, the LSD council endeavored to conduct more functions; to formulate rules and guides for the assessment of technical competence; to propose necessary amendments to the rules of Land Surveying Division. The above work could not be made possible without the dedication and commitment of council members, committee and working group members. I must take this opportunity to express my deep gratitude for their hard work and hope they would continue to serve the council in the coming years.

Edwin Tsang

Planning & Development Division

Planning & Development surveyors are real estate professionals specializing in development property and town planning. They work in both government and private sectors. At present there are not many Planning & Development surveyors in Hong Kong. Job opportunities for Planning & Development Surveyors in Hong Kong and particularly in mainland China is promising.

To encourage young professionals to enroll as Planning & Development surveyors, APC examinations are available to probationers. Application forms can be downloaded from the HKIS website.

This year the Division is planning to hold a series of CPD lectures in planning and development fields for students and young professionals. A well conceived P&D Assessment of Professional Competence (APC) system has been prepared for graduates of accredited educational institutions (including HKU and HK PolyU in Hong Kong). It sets out the major requirements for becoming a qualified P&D surveyor. Amongst other things, the major requirement is a minimum 3 years of relevant professional experience. For details, please refer to the relevant APC Rules and Guide which are obtainable from the HKIS Secretariat. Interested candidates are invited to submit their applications via the HKIS.

Recognized APC Counsellors

- Professor William Seabrooke
- Kempis Lam
- Edwin Tsang
- Francis Lau
- Eureka Cheng
- Michael Cheung
- Julian Wyatt

The Planning & Development Divisional Council 2003/2004

Chairman	Edwin Tsang
Hon Secretary	Francis Lau
Council Members	William Seabrooke

	Norman Ngai
	Marcus Li
Education Committee	Kempis Lam (Convenor)
Membership Committee	Francis Lau (Convenor)
Representative to SRB	Francis Lau

Gilbert Kwok

Quantity Surveying Division

While the property market started to recover in 2004 and most if not all of the Divisional Council members were quite busy, the Divisional Council was still trying its best to and did arrange as many activities as possible and further strengthen its tie with its members and other organizations.

58

Members of the Divisional Council

Chairman	Kwok Ching Wa Gilbert
Vice Chairman	Sam Cheng
Honorary Secretary	Paul Ho
Honorary Treasurer	Daniel Ho
Members	KC Tang, Evelyn Kwok, Stephen Chung, KS Tam, Keith Yim, James Longbottom, Patrick O'Neill, Sandy Tang, Sunny Chan, Antony Man, Frederick Tsang, Paulina Yip, Escode Yuen, Spencer Kwan, Gregory Tung and Jervis Chan
Co-opt Members	TT Cheung, Nelson Cheng, Tommy Yim, Derek Mackay, Anita Liu, HF Leung, Thomas Tse, Mickey Wong, Ellen Lau, Donald Wong, MH Suen, Calvin Cheung, Monique Leung, Peter Ho, Bernard Wu, Ricky Chan, Hornby Chan, Edmond Yiu, Patrick Wan, Franki Yeung and Edmond Lin
J O Representatives	Victor Lau, Keith Wong

The above-mentioned members have organized many divisional activities in 2004 through the following sub-committees:-

- Mainland Sub-Committee
- International Sub-Committee
- Conditions of Contract Sub-Committee
- Assessment of Professional Competence (APC) Sub-Committee
- Continuing Professional Development (CPD) Sub-Committee
- SMM (building and building services) Sub-Committee
- Education Sub-Committee
- New Member Liaison Sub-Committee

International

International Costs Engineering Council (ICEC)

Our Senior Vice President at the time, TT Cheung who is also one of our past Chairmen was elected as a director of Region 4 for a further term of two years from 2004. A delegation of Divisional Council members attended the 4th World Congress of ICEC held in Cape Town from 17 to 24 April 2004. That Congress was well received.

Pacific Association of Quantity Surveyors (PAQS)

The 8th PAQS Congress was also held in Cape Town from 17 to 24 April 2004. I am sure frequent meetings and discussions with these international organizations and by taking part in the above-mentioned conferences, we are kept informed on quantity surveying developments in other parts of the world. In addition, the Senior Vice President at the time, TT Cheung was awarded by ICEC the Distinguished International Fellow Award, the highest award of that association.

Reciprocity Agreement between HKIS and China Engineering Costs Association (CECA)

The Mainland Sub-Committee members had several meetings and discussions with CECA about reciprocity arrangements in 2004. On 23 June, the Division had a forum on reciprocity. Before the forum, the latest draft Reciprocity Agreement had been put on the website of the Institute. Those attended the forum raised a number of queries and suggestions. For instance, the then latest draft Reciprocity Agreement required each HKIS applicant to possess a degree certificate. Some members queried why there should be such a requirement. At a further meeting between the Division and CECA in Guangzhou in August, those concerns of members were raised. CECA accepted all proposed changes suggested by Divisional members. The terms of the Agreement were in principle agreed by the two associations in August subject to approval of relevant authorities. It could be the case that by the time you receive this Directory and Annual Report, the reciprocity agreement has already been signed.

Domestic

New Conditions of Contract

The Division formed a working group in 2004 with the Hong Kong Institute of Architects and the Hong Kong Institute of Construction Managers to arrange the formal launching of the new Conditions of Contract. Various details for the launching were discussed by the working group including the assignment of copyright to the three Institutes, printing arrangements. The formal launching ceremony for the new Conditions of Contract has been scheduled for April 2005.

SMM4

The SMM Sub-Committee had been waiting for the completion of the Chinese translation of SMM4 before arranging a formal launching of SMM4. It would be better if both the English and Chinese versions of the new SMM4 would be launched at the same time. Arrangements in this regard were made in 2004.

CPD Events

Date	Topic	Speaker
04-02-11	Paving the way to become a Construction Mediator	Mr H F Leung Dr Edwin Chan Mr James Kenneth Pong Mr James Lee
04-02-22 & 29; 04-03-07 & 14	QS APC Case Study Seminars	QSD Experienced APC Assessors
04-03-16	Legal Principles on EOT, LD and Time at Large	Mr Christopher Tung Ms May Ng
04-03-30	Managing the Arbitration	Mr Harold Crowter
04-06-03	Construction Insurance	Mr Dennis Barnes
04-06-10	Health, Safety & Environment Innovations towards the Success of a Construction Project – a Case Study on Pacific Place 3	Dr Ben Chi-wai Ho
04-06-24	Construction Insurance Compensation	Mr T T Cheung
04-06-25	內地有關工程造價的立法與及提供諮詢服務應注意的法律問題	朱樹英先生
04-06-26	建設工程工程量清單計價規範簡介	徐佩清女士
04-07-15	Construction Insurance Compensation (2nd seminar)	Mr T T Cheung
04-07-21	Common Causes and Resolutions of Disputes in the Construction Industry	Mr Steven Yip Ms Mary Chan
04-08-05	Independent QS Role in Infrastructure Works Projects	The Hon P C Lau
04-08-06	Construction Insolvency & Liquidation – What Actions need to be taken by the Liquidators?	Mr Derek Lai
04-08-26	Sensitive Zones for Construction Professionals – Their Personal Liabilities	Mr Gregory Tung
04-09-04	Site Visit to Langham Place, the heart of Mongkok	Mr C W Tong
04-09-10	Public Private Partnerships (PPP) – Development Potentials in HK	Mr Francis Leung Dr Paul Ho
04-10-07	QS's Prospect in Specializing in Construction Dispute Resolution	Mr Joseph Lee
04-10-14	A New Proactive Way to Control the Cost of Variations	Mr Keith Ng
04-11-12	Some Thoughts on the Use of Expert Evidence in Construction Litigation	The Hon Justice Reyes
04-11-17	Alternative Procurement Methods – Construction Management & Macau	Mr Julian Hill Ms Janette van Kernebeek

The most popular seminar was the one presented by Mr Dennis Barnes on "construction insurance". The number of people attended that seminar was 286. Another popular seminar was given by the Honourable Mr Justice Reyes, the Judge in charge of the Construction List of the High Court of Hong Kong. He gave a step-by-step explanation of what he would expect from experts as to how expert evidence would need to be prepared and presented in Court.

Public Private Partnerships

Our Immediate Past Chairman (2002-2003), Mr Francis Leung and our then Honorary Secretary, Dr Paul Ho arranged a very successful and high profile PPP conference in May 2004. The conference, officiated by Dr Sarah Liao, Secretary for ETWB, was very well received. I am sure for those who attended the conference, they left with the impression that quantity surveyors are able to participate and contribute significantly in PPP projects.

Dispute Resolution

In addition to the fact that we had our Council member Mr H F Leung chairing the Dispute Resolution Committee of the Institute and making a number of reforms and suggestions in 2004, the Division had proposed Mr Justice Burrell, a High Court Judge who decided a lot of construction cases, to be awarded an honorary fellow membership. The Board of Membership and the General Council both approved the nomination in 2004. That nomination was put to vote at the Institute's AGM on 13 December 2004 and was approved. We hope that in addition to the Honorary Mr Justice Reyes who gave a useful seminar to QS members in 2004, Mr Justice Burrell will actively participate in the Division's activities and will strengthen QS expertise in dispute resolution.

New Members

Thanks for the arrangements made by the New Member Liaison Sub-Committee chaired by Ms Sandy Tang, a welcoming dinner was held to welcome those newly qualified members to the Division. I trust that those newly qualified members enjoyed that evening and would participate actively in divisional activities.

An Evening with Assessors

Our Co-opt member, Mr Franki Yeung arranged a gathering with APC Assessors who were briefed by Mr Yeung and other members of the APC team the requirements of marking APC papers. I am sure that those attended the event also enjoyed a wonderful evening with other fellow members.

Visitors from the Mainland

During 2004, many Mainland visitors including cost engineers visited the Division. Thanks for the arrangements made by the Mainland Sub-Committee, the visitors were briefed on the Institute and quantity surveying practice in Hong Kong. The last visit in 2004 was made by the cost engineers association in Xinjiang. Mr Spencer Kwan, one of our Council members, made all necessary arrangements. I believe those visitors from Xinjiang were impressed by the presentations made on that day by the Division.

Antony Man

Junior Organization Committee Report

Tony Wan

Junior Organization

Time flies. Today is the last day of my chairmanship of the Junior Organization and a time for me to conclude our achievements in 2004.

PQSL/CPD Events

Following the success last year, we have organized 27 PQSL events and 17 CPD events in 2004. These have covered various hot and interesting topics of different professional disciplines, offering a wide range of knowledge to our members. The following are all cases in point:-

- Building Surveying** – Cladding System in Hong Kong, Fire Safety Engineering, Project Management in Bank Renovation;
- General Practice** – Real Estate Valuation in China, Planning Application & Lease Modification – Success on Integrated Redevelopment, Rating – The Process;
- Land Surveying** – Geodetic System in Hong Kong;
- Quantity Surveying** – Review of Construction Law Cases in 2003, Examination of Tenders and Report Writing, Dispute Resolution;
- Others** – Is Volunteering Measurable, Appearance of a Real Professional.

Apart from conducting indoor lectures, a number of site visits have also been arranged for our members. We have toured around "The Lily" on 129 Repulse Bay Road, and learnt modern pre-cast technology at a construction site in Fu Tei.

I am glad to see so many PQSL/CPD events being held this year. The strong participation of our members and good feedback from them have evidenced the success of the events. In addition to the speakers, special credits should go to our event organizers. I would like to take this opportunity to express my gratitude to the following JO members who have contributed in the PQSL/CPD events: Stephen Li (BS), Jo Lau (BS), Alex Wong (BS), Joanmi Li (BS), Kelvin Ng (GP), Sheldon Ip (GP), Kenny Chan (LS), Alvin Chan (LS), Joseph Chong (QS) and Victor Lau (QS).

Social Events

More than 10 diverse social events have been held this year and the following are worth mentioning: dragon boat competition, sea cruise, JO camp, charity flag sale, ball games with university students, school visits, JO annual dinner and football matches with other professional bodies including The Hong Kong Institution of Engineers, The Hong Kong Institute of Architect, The Hong Kong Institute of Landscape Architects, The Hong Kong Medical Association and The Hong Kong Institute of Certified Public Accountants.

Special thanks is due to all event organizers which include but not limited to Lesly Lam, Vincent Lim, Kenny Chan, Martin Leung, Sheldon Ip, Hazel Tee and Tony Yung.

Shanghai Tour

I do believe the tour is a breakthrough, which has marked a good start for JO in organizing cross-the-border functions in the future. 22 young members, of course including myself, have joined the Tour in September. Not only visited various government departments, we also met with many local practitioners who were so kind to share with us their practical working experience in Shanghai.

Conclusion

I would like to conclude my nine-year services in JO by the following statement:

“Without your participation, we never succeed!”

Board of Education Report

Wong Bay

Board of Education

Accountable to the General Council for all education matters, the Board of Education (BOE) is commissioned to the assessment and validation of academic qualifications for admission to the training grade, the administration of the assessment of competence for professional and technical qualifications of the Institute. With the approval to the amendments to the Constitution and Bye-Laws in the Extraordinary General Meeting in October 2003, the task of administration of members' continuous professional development was taken over by the newly formed Board of Professional Development.

The BOE met 8 times during the year 2004 and the membership comprises:

Mr Wong Bay	Chairman
Mr C K Lau	BSD Representative
Mr Kenneth Yun	BSD Representative
Mr Lawrence Poon	GPD Representative
Mr Simon Wang	GPD Representative
Dr Esmond Mok	LSD Representative
Mr Kwan Lam Fat	LSD Representative
Mr Derek Mackay	QSD Representative
Mr K C Tang	QSD Representative
Mr Kempis Lam	P&DD Representative
Mr Edwin Tsang	P&DD Representative
Mr Victor Lau	JO Representative
Prof Barnabas Chung	Co-opt member

Surveying Course Accreditation

Following the dissolution of the Surveying Courses Panel, the BOE endorsed the establishment of a Panel of Experts from which members will be selected to form working parties to undertake the vetting, assessment and accreditation functions of surveying courses as and when instructed by the Board. As at 31 December 2004, the Panel comprised the following members:

BSD

Lo Siu Ming, Daniel Ho, Dr Chan Man Wai, Raymond Chan, Richard Cheung, Kenneth Chan, Augustine Chow, Gordon Wong, Alex Chan Kai Hong, Danny Cheng Po Ming, Dr Graeme Baldwin

GPD

Dr Lawrence Poon, Man King Fai, Christina Yim, Esther Ko, Tony Wan, Ronald Cheung, EM Hastings, CM Mo, Francis Lam

QSD

HF Leung, SO Cheung, Philip Lo, Kim Berry, Nelson Cheng, Sam Cheng, TT Cheung, Dr Chiang Yat Hung, Dr Paul Ho, Jacob Lam, Dr Anita Liu, Kenneth Poon

LSD

Professor YQ Chen, Dr Esmond Mok, Man Wing Kan, Cheng Wai Pun, Ng Tsan Wing, Kwan Lam Fat

PDD

Edwin Tsang, Eureka Cheng, Professor Bill Seabrooke, Kempis Lam

Accreditation of surveying courses continued to be pursued in accordance with the approved *Policy and Procedures for Course Approval, Maintenance and Review*. During the year, 8 overseas and 7 local degree programmes were accredited or re-accredited. Currently, two local degree programmes are under the assessment process. The BOE recognizes the Assessment of Hong Kong Council for Academic Accreditation as the “non-cognate” route to the application for probationer membership.

The BOE has also formed a Working Group to work out the details of accreditation of cognate degrees and non-cognate but good graduate degrees for the purposes of Bye-Laws 2.3.5 (a). The Working Group will also act as a standing working group to assess the acceptability of academic qualifications submitted by individual candidates that have not been previously assessed.

The Board wishes to take the opportunity to express its appreciation to all members on the Panel who have contributed their valuable time and energy to various vetting and assessment activities.

Assessment of Professional Competence (APC)

During the calendar year of 2004, there were 264 APC candidates (81 BS, 76 GP, 11 LS and 96 QS) while no candidate has yet registered for the P&D APC. This represents an overall increase of 5.2% over the 2003 figure of 251 candidates (78 BS, 53 GP, 12 LS and 108 QS).

Apart from P&D Assessors who have yet to be recruited, there are currently 238 BS, 270 GP, 57 LS and 523 QS Assessors. The full lists of the Divisional Panel of Assessors are in the Annex. The BOE wishes to record a note of appreciation to all the Assessors who have contributed substantially to help maintain the professional standard of new surveyors. In order to help APC candidates to better prepare themselves for the assessments, various Divisions and the Junior Organization organized workshops and training programmes, which were well received by candidates.

The Practical Task of the BSD was held on 8 to 11 November 2004 which has mobilized some 120 assessors and modulators. A total of 133 candidates attempted and 54 (41%) passed. There were 60 candidates undertaking the Practical Task for the first time and 28 (47%) passed. Professional interviews were conducted throughout the year. A total of 27

candidates presented themselves in 2004 for professional interview and 8 (30%) were found satisfactory. A critical analysis is required upon completion of the 21st month of training. There were 10 candidates undertaking the analysis and 2 (20%) passed.

The Written Assessment of the GPD was held on 12 October 2004. A total of 104 candidates took part and 71 (68%) passed. Professional interviews were conducted for 92 candidates of whom 39 (42%) were found satisfactory.

During the year, 5 Land Surveying candidates applied for the Final Assessment and 2 (40%) passed.

On 27 to 28 September 2004, 497 candidates attempted the Practice Problem of the QSD. The papers were each moderated by three assessors and 56 candidates (11.3%) passed. Professional interview for 56 candidates were conducted and 47 (84%) were found satisfactory.

Assessment of Technical Competence (ATC)

An Extraordinary General Meeting on 7 October formally approved the amendments to the Constitution and Bye-Laws. The main amendments include the introduction of the new grades of Technical Associates and Technical Trainees which will broaden our membership base and provide a second route for the Technical Members to become corporate members. The Divisional Education Committees worked very hard to develop a cross-divisional common framework, benchmarking and administrative arrangement for the ATC during the year. The Rules and Guides to the ATC of the BSD, GPD and LSD were endorsed by the General Council in August 2004 and have been up-loaded to the HKIS web site.

A Working Group for the development of the second level policy guidelines on academic qualifications admissible to the training grade of probationers for admission to APC was formed under the leadership of Dr Lawrence Poon in October 2004.

To sum up, it has been a very busy year for the members of the BOE and the Divisional Education Committees. I would like to express my gratitude to all colleagues who have worked extremely hard voluntarily, contributing substantially to help maintaining the professional standard of our new generation. My salute and appreciations to all these volunteers!

Board of Membership Report

KK Chiu

Board of Membership

A total of 871 applications were processed in 2004. Across all Divisions and all grades of membership, the current statistics as at 31 December 2004 (comparisons with the December 2003) are as follows:-

BS	:	Fellows	77	(2.66% increase)
	:	Members	594	(2.23% increase)
	:	Technical Associates	0	
GP	:	Fellows	158	(1.93% increase)
	:	Members	1,259	(19.44% increase)
	:	Technical Associates	1	
LS	:	Fellows	36	(0% increase)
	:	Members	155	(2.64% increase)
	:	Technical Associates	28	
QS	:	Fellows	181	(4.02% increase)
	:	Members	1,360	(10.56% increase)
	:	Technical Associates	8	
PD	:	Fellows	3	(0% increase)
	:	Members	4	(0% increase)
	:	Technical Associates	0	
Probationers	:	All Divisions	2,444	(0.28% decrease)
Students	:	All Divisions	116	(17.17% increase)
Technical Trainees	:	All Divisions	0	
Fellows (All Divisions)	:		455	(2.70% increase)
Members (All Divisions)	:		3,372	(11.65% increase)
Technical Associates (All Divisions)	:		37	
All Probationers & Students	:		2,560	(0.39% increase)
Total	:		6,424	(6% increase)

Milestone Events

- 1) Further to the Extraordinary General Meeting held in October 2003, the BoM noted that there was a grey area on the maximum period as Probationer. The BoM therefore recommended to the General Council on the commencement date for counting the maximum period. The General Council has accepted the BoM's recommendation that the commencement date should be the date when the resolution for formation of Probationer i.e. 7 October 2003.

- 2) After the reciprocity agreement had been signed between China Institute of Real Estate Appraisers (CIREA) on 5 November 2003, the first supplementary examination was held in Shenzhen in March 2004. 97 members of our institute were elected the members of CIREA and 111 CIREA members were elected as Members of our Institute on 27 May 2004.
- 3) Having received a number of applications for the Member of our Institute from members of our sister institutes, the BoM noted that although there is a reciprocity agreement between the sister institutes and our Institute, the applicants have not taken the Assessment of Professional Competence but have only been offered the membership of the sister institute. The BoM also noted that some of applicants were working in the areas which were different from the division they applied. With the authorization of the General Council, the BoM would, under the Bye-Law of our Institute, require the aforesaid applicants to submit to a professional interview administered by the BoM.
- 4) Having considered the situation in (3), a Working Group was set up to review the relationship between Royal Institution of Chartered Surveyors and the Institute. The General Council has agreed to appoint Mr Stephen Liu as the Chairman of this Group.
- 5) Following the amendments to the Bye-Laws in October 2003, members have been allowed to register in more than one division. Within the year of 2004, I was surprised that no application has been received. The BoM has proposed to the General Council on the application fee and the subscription fee for Multiple Membership. An Extraordinary General Meeting will be held to pass the resolution for additional fee on the additional membership.
- 6) The BoM recommended the nomination of Honorary Fellow of Hon Mr Justice Burrell (QSD) for the consideration of the General Council. The nomination had been endorsed at the Annual General Meeting held on 13 December 2004.

Board of Membership 2003/2004 Composition

Mr Chiu Kam Kuen	Chairman
Mr Kwok Kim Sang, Evenlyn	Deputy Chairman
Mr Cheung Tin Cheung	BSD representative
Mr Tang Hoi Kwan, Edwin	BSD representative
Mr Ng Sai Hee, Victor	GPD representative
Mr Wong Ho Ming, Augustine	GPD representative
Mr Man Wing Kan	LSD representative
Mr Wong Thien Nyen	LSD representative
Mr Tse Che Wah, Thomas	QSD representative
Mr Yim Siu Chung, Keith	QSD representative
Mr Lau Tak, Francis	PDD representative
Mr Chan Chi Ho, Sunny	JO representative
Ms Lau Wing Shan, Jo	JO representative
Mr Chan Wah Wai, David	Co-opt Member

Board of Professional Development Report

Barnabas Chung

Board of Professional Development

Although Part XII of the Bye-laws was enacted in 2003 to enable the constituted of the Board of Professional Department, it was not inaugurated until early 2004. The membership of the Board of Professional Development for the session 2003/2004 comprises

Prof Barnabas Chung Hung-kwan	Chairman
Mr Kenneth Chan Jor-kin	BSD Representative
Dr Daniel Ho Chi-wing	BSD Representative
Dr Lawrence Poon Wing-cheung	GPD Representative
Mr Ronald Cheung Yat-fai	GPD Representative
Mr Lam Li-wah	LSD Representative
Mr Ng Tsan-wing	LSD Representative
Mr Francis Lau-Tak	P&DD Representative
Mr Edwin Tsang Ching-lun	P&DD Representative
Mr Francis Leung Lap-ki	QSD Representative
Mr Stephen Liu Ling-hong	QSD Representative
Mr Tony Wan Wai-ming	JO Representative
Mr Lesly Lam Lik-shan	JO Representative

The objectives of the Board are to establish and maintain a high standard of professional competence of members and to organize and promote continuing professional development of members. The Board therefore considered policies and control mechanism for mandatory continuing professional development and lifelong learning to help members enhance not only their professional competence but also their social status as professional surveyors. A working group chaired by Dr Daniel Ho has been reviewing the previous CPD guidelines so as to formulate new guidelines for mandatory CPD. The ultimate objective is to require all professional and technical members to engage themselves in a continuous process of sharpening their expertise and broadening their specialist knowledge base. It is only with consistently high and ever-improving professional competence of its members that the Institute may strengthen its strategic position in the property industry, for the long-term sustainability of the surveying profession in Hong Kong. Throughout the year, 101 CPD events were organized by the various Divisions and the JO, many of which also served as PQSL for APC candidates.
